

**Exterior productivity door  
with fast vertical fold-up.  
Multifold steel structure.  
Motor unit in the crossbeam,  
accessible from underneath.**

# **ENDURO** *Trekking* Version C

**Enduro Trekking C** is the first fast industrial flexible door designed for exterior openings up to 5 x 5 m and its mechanism can be accessed from underneath the crossbeam.

It can be fitted with a single layer curtain, or double layer curtain for increased insulation.

Also available in the same product line : Enduro Trekking A (above access), Trekking B (access from front), Enduro Puissance for strong winds, and Enduro Forum for interior, including corridors.
